Agenda Item No. 3(B)(2)

Subject: Resolution Ratifying the Action Related to Miami-Dade Water and Sewer Department Consent Decree and Capital Improvement Programs Acceleration Ordinance Pursuant to Section 2-8.2.12 of the Miami-Dade County Code

Recommendation

It is recommended that the Board of County Commissioners (Board) ratify the action of the County Mayor or County Mayor's designee as authorized under Section 2-8.2.12 of the Miami-Dade County Code related to Miami-Dade Water and Sewer Department's Consent Decree and Capital Improvement Programs Acceleration Ordinance (WASD Acceleration Ordinance) for the funded project identified below and in Exhibit A, as attached.

Multi-Year Capital Plan Project

Item 1 - Recommendation to Award: Construction Contract for South Miami Heights Water Treatment Plant Injection Well System and Upper Floridan Aquifer Test Production Well Program. This item requests ratification of a contract award in the amount of \$16,996,505.38 with a total contract term of 616 days to Youngquist Brothers, Inc.

Scope

The commission district of the project location is noted on Exhibit A. The capital projects awarded through WASD's Acceleration Ordinance have a countywide impact.

Fiscal Impact/Funding Source

The fiscal impact and funding source for the project in this item is detailed in Exhibit A and the other accompanying attachments.

Track Record/Monitoring

WASD's Director, Lester Sola, will oversee the implementation of this project.

Background

On September 3, 2014, the Board approved Ordinance No. 14-77 authorizing the County Mayor or County Mayor's designee to award contracts for funded capital projects and related goods and services and accelerate the approval of WASD's: 1) Consent Decree projects, and 2) projects identified in WASD Multi-Year Capital Plan's Capital Improvements Program, without the need for prior Board approval but subject to ratification by the Board.

The accelerated approval process provided through WASD's Acceleration Ordinance reduces the time period to award a contract by approximately 60 days in order to assist WASD in meeting Consent Decree deliverables implementation deadlines and rehabilitation project deadlines and begin work on its Multi-Year Capital Improvements Program projects.

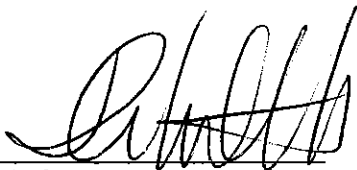

Exhibit A and Exhibit B include the details of the competitively bid award for which ratification is being requested. Exhibit A contains the information bulleted below for each contract award:

- Item Number
- Department Name
- Type of Solicitation
- Contract Type
- Contract No. / Project No.
- Project Name
- Firm Awarded
- Commission District
- Contract Amount
- Funding Source(s)
- Operations and Maintenance Costs
- Estimated Start Date/Estimated End Date
- Contract Measures: SBE Goods & Services; SBE-A/E; SBE-Construction; and CWP Program
- Brief Project Description

Exhibit B, including its Exhibit A, is the recommendation to award this contract. All other attachments to the recommendation are available upon request.

The contract listed in this memorandum is executed by the County Mayor or County Mayor's designee in accordance with WASD's Acceleration Ordinance. A copy is available upon request from the Department's Intergovernmental Affairs Division.

CLERK OF THE BOARD

Date: July 1, 2015

To: Lester Sola, Director
Water and Sewer Department

From: Zaba S. Castro, Esq.
Assistant Director
Legislative and Municipal Affairs

Subject: Recommendation approving award of a construction contract for South Miami Heights Water Treatment Plant Injection Well System and Upper Floridan Aquifer Test Production Well Program - Contract No: W-930

RECOMMENDATION:

Pursuant to the Miami-Dade Water and Sewer Department (WASD) Consent Decree and Capital Improvement Programs Acceleration Ordinance, Section 2-8.2.12 of the Code of Miami-Dade County, it is recommended that the County Mayor or Mayor's designee approve this contract award recommendation to Youngquist Brothers, Inc. to construct the Injection Well System and Upper Floridan Aquifer Test Production Well Program, Contract No. W-930, at the South Miami Heights Water Treatment Plant. The total compensation amount of this construction contract is \$16,996,505.38 with a total contract term of 616 days.

DELEGATION OF AUTHORITY:

The County Mayor or County Mayor's designee is authorized to amend and execute the Contract. Pursuant to the provisions of Sections 2-8.2.12 (4)(d) and (e) of the Code, the County Mayor or Mayor's designee will have the authority to amend and/or extend the Contract to complete any unfinished work, waive, liquidated damages, negotiate and settle claims, and execute change orders that do not exceed ten percent (10%) of the base contract amount.

PROJECT NAME:

South Miami Heights Water Treatment Plant Injection Well System and Upper Floridan Aquifer Test Production Well Program

PROJECT DESCRIPTION:

This project under the South Miami Heights Water Treatment Plant Program consists of a Part A, for completion of the Deep Injection Well System, and a Part B, for completion of the Upper Floridan Aquifer Test Production Well Program. The Project consists of furnishing all materials, labor and equipment necessary to construct Part A and Part B, as follows:

1. PART A - Injection Well System

The Injection Well System consists of a Class V Injection Well and a Dual-Zone Monitor Well, as follows:

- Construct one (1) Class V Injection Well at the South Miami Heights Water Treatment Plant site to a depth of approximately 3,500-ft below land surface;

- Construct one (1) Dual-Zone Monitor Well to a depth of approximately 1,850-ft below land surface; and
- Construct temporary drilling pads and water table monitoring wells, site preparation, site restoration, well testing, coordination with other testing performed by the Department, drilling fluid management plan and temporary fluid management system, providing temporary power, temporary facilities, and any items of materials, equipment, supplies, and all other appurtenant and miscellaneous items and work for a complete, functional, and satisfactory installation of the injection well system.

2. PART B – Upper Floridan Aquifer Test Production Well Program:

The Upper Floridan Aquifer Test Production Well Program consists of several test production wells and one (1) continuous core boring at several sites, as follows:

- Construct one (1) Upper Floridan Aquifer Test Production Well at the Roberta Hunter Park wellfield site, to a depth of approximately 1,400-ft below land surface;
- Construct one (1) Upper Floridan Aquifer Test Production Well at the Black Creek Canal (C-1) wellfield site, to a depth of approximately 1,400-ft below land surface;
- Construct one (1) Upper Floridan Aquifer Test Production Well at the South Miami Heights Water Treatment Plant site, to a depth of approximately 1,400-ft below land surface;
- Construct one (1) Upper Floridan Aquifer Test Well as directed by the Engineer (Contingent Item), to a depth of approximately 1,400-ft below land surface;
- Construct one (1) Continuous Core Boring at the South Miami Heights Water Treatment Plant site, to a depth of approximately 1,640-ft below land surface; and
- Construct temporary drilling pads and water table monitoring wells, site preparation, site restoration, well testing, coordination with other testing performed by the Department, drilling fluid management plan and temporary fluid management system, providing temporary power, temporary facilities, and any items of materials, equipment, supplies, and all other appurtenant and miscellaneous items and work for a complete, functional, and satisfactory installation of the program.

PROJECT LOCATION:

The South Miami Heights Water Treatment Plant is located at 11800 S.W. 208th Street, in Section 12, Township 56 South, Range 39 East, and Section 7, Township 56 South, Range 40 East; the Roberta Hunter Park wellfield is located along SW 117th Avenue in Section 12, Township 56 South, Range 39 East and Section 7, Township 56 South, Range 40 East; and the C-1 Canal wellfield is located along the Black Creek Canal in Section 12, Township 56 South, Range 39 East; all in Miami-Dade County, Florida, 33177.

TRACK RECORD / MONITOR/SBD HISTORY OF VIOLATIONS:

Due diligence was conducted by WASD and the Internal Services Department (ISD) in accordance with ISD's Procurement Guidelines to determine responsibility, including verifying corporate status and performance and compliance data. The lists that were reviewed include: convicted vendors, debarred vendors, delinquent contractors, suspended vendors, and federal excluded parties. There were no adverse findings relating to Youngquist Brothers, Inc.'s responsibility. This information is being provided pursuant to Resolution R-187-12.

EXPLANATION:

On May 12, 2015, WASD received two (2) bids for this Contract No. W-930, as follows: Youngquist Brothers, Inc. in the amount of \$16,996,505.38 and Layne Christensen Company in the amount of \$20,983,271.20.

The solicitation required submittal of proof certain qualifications along with the bidder's proposal in a sealed envelope. Both bids were forwarded to CDM Smith, the design consultant, for evaluation and award recommendation.

On May 20, 2015, CDM Smith furnished WASD with their bid evaluation and recommendation (attached as EXHIBIT "D") to award to Youngquist Brothers, Inc., the low bidder. According to CDM Smith's evaluation, the low bidder's experience and qualifications submitted are in responsible conformance with the specified requirements. As such, it is recommended that the project be awarded to the lowest responsible, responsive bidder, Youngquist Brothers, Inc., whose base bid is 11% below the engineer's base estimate.

The Internal Services Department's Capital Improvements Information System database contains two (2) evaluations (attached as EXHIBIT "E") for Youngquist Brothers, Inc. with an average overall rating of 3.9 points out of a possible 4 points, which is indicative of a superior performance.

BACKGROUND:

This project is for the construction of a deep industrial waste injection well, dual-zone monitoring well, three (3) test production wells, and one (1) 1,600 feet continuous coring well at the proposed South Miami Heights Water Treatment Plant. The wells will be designed and constructed in accordance with Florida Administrative Code and will be permitted by the Florida Department of Environmental Protection and South Florida Water Management District. WASD currently has a FDEP Class V Exploratory well permit for construction of the proposed deep injection well and dual-zone monitoring well for this project.

In addition, this project is one in a series of projects that will construct a proposed water treatment plant at the site of the South Miami Heights Water Treatment Plant. This project is needed in advance of the proposed plant project which will be procured as a public private partnership for Design-Build-Finance-Operate-Maintain Services for South Miami Heights Water Treatment Plant Program.
